April 20, 2018

Mr. Alan Charles Dell'Ario Foreperson Napa County Grand Jury 1754 Second Street, Suite D Napa, CA 94559

RE: Your letter dated April 12, 2018

Dear Mr. Dell'Ario:

Thank you for your letter dated April 12th requesting follow up information on two Napa County Grand Jury recommendations from its 2013-2014 final report entitled: Napa County Transportation & Planning Agency (NCTPA) Vine: Management & Ridership for the Future. NVTA Board Chair, Peter White, requested that I respond on his behalf.

Your letter notes that this is your second request. The agency has no record of ever receiving your first request and we therefore apologize for not responding earlier.

In response to your specific inquiry, you refer to Recommendation No. 3 of the above mentioned report which "recommends that the BOD to explore ways to improve NCTPA management retention such as merit pay or other incentives, and put in place for the coming fiscal year." In our response we underscored the managerial stability of the agency by noting that the agency had been in existence since 1998 and that there were only four executive directors in the agency's 16 year history. Two of the executive directors retired from the agency, one resigned and the fourth executive director is still with the agency.

Nevertheless, the agency has made several changes that will help retain and advance staff and draw new employee talent to the agency. First, in 2017 two "director" level management classifications were added and two internal employees were promoted into the new positions overseeing Planning, Projects, and Programs and Accounting, Policy, and Administration. Second, the executive director has informed the chair and vice chair that staff is working on improving employee medical retirement benefits. Third, I have discussed with the Chair and the Vice Chair my concern about being able to fill the engineering manager position at its current salary level. The position will be open this fall when the current engineering manager retires. The position has been posted with an open salary. It should be noted that the latter two items have not yet been approved by the board but they are scheduled to be heard by the Board this spring or early summer.

Your second request refers to Recommendation No. 8 of the above-mentioned report which recommends implementation of "a coordinated VINE marketing strategy with each Napa County

jurisdiction so that NCTPA's transit services are readily available and consistently communicated across all public, community and visitor websites." At the time, NVTA staff contacted each of the jurisdictions and requested that they make corrections. A recent scan of each of the 6 jurisdictions' sites indicate that some of the jurisdictions maintain a link to NVTA and profile the Vine system but others do not. We sent the jurisdictions a request to add the Vine to the appropriate pages just prior to sending this letter. Since the report was originally published, the agency also created a marketing and communications position. That position is currently open but we will make sure that the staff member is on top of coordinating marketing efforts with the jurisdictions when the position is filled.

Please contact me should you have any questions or require additional information. My email address is kmiller@nvta.ca.gov and my phone number is 707-259-8634.

Sincerely.

Kate Miller
